

UNICON Antitrust/Competition Statement

Antitrust/Competition law describes a variety of laws aimed at preserving fair, honest, and vigorous competition in the marketplace.

It is based upon the theory that such competition ultimately leads to lower prices, increased supply, and continued improvements in goods and services, thereby ultimately benefiting the customer.

Therefore, antitrust/competition laws, for example, prohibit agreements between competitors to fix prices and also limit monopolies.

UNICON believes that vigorous competition is essential for driving innovation, improvements, and efficiencies in all industries, including the executive education industry, and believes the services it provides to Members foster that competition.

Please refer to the UNICON Policy Guide for antitrust policy details.
